PERVASIVE UPGRADES:

Why should you upgrade your Pervasive Database ?

The Pervasive performance capability has been increased, and Pervasive 9.6 is now more stable and reliable than previous versions. Problems with the engine or data can be more easily detected with these improved tools. Btrieve Performance is an industry leading transactional API for the fastest access to your data, while the Pervasive Control Centre has also been rewritten, and is now easier to use. Pervasive 9.6 is VISTA compliant.

Words of wisdom

A winner is a person who asks questions and listens to the answers; a loser never listens. A person can run away from his troubles just as easily as he can run away from his shadow. - Unknown

Pastel New Prices

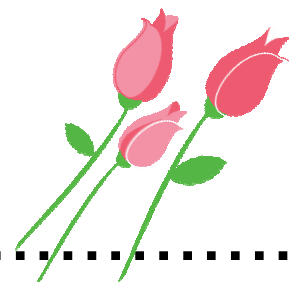

Spring, a time for new changes

Pastel Fixed Assets

- South African Company Law requires that you keep a register of your business' fixed assets as part of it's accounting records. However, managing your company's fixed assets can be tedious and time-consuming. The new version of Fixed Assets will be IFRS compliant. We are also working on a solution to use handheld scanners with the Fixed Assets Module to scan all assets and then to download scanned Assets to be reconciled with your register.

■ Single User	R 3 238.00
■ 2 Users	R 4 318.00
■ 3-5 Users	R 6 478.00

- Prices are VAT Inclusive. Contact us at helpme@evoafrica.com or ben@passolutions.co.za for a formal quote or a demo of Pastel Fixed Assets.
